Bulletin No. 04-2018

To: NISS Member Companies

Re: Data Quality Reports

NISS provides Data Quality reports for selected lines of business to companies as part of its effort to provide members with helpful reports on their Call submissions. Data Quality reports contain detailed results of NISS edit checks, and depending on the Call, may also contain distribution total listings (Prooflists) and quota determination reports (Plan B).

Data Quality reports are provided to member companies for the following 2018 Calls:

- Automobile (A)
- North Carolina Quarterly Automobile (AQR)
- Assigned Risk Quarterly Automobile (ARP)
- Commercial Lines (CLSP)
- Burglary, Robbery, and Theft (BR)
- Farmowners (FO)
- Fidelity, Surety, and Forgery (FS)
- Homeowners (HO)
- Inland Marine (IM)

Each company's Data Quality Reports and Documentation (DQR) can be found on the NISS website under [View Correspondence](#). Select the applicable Call and Call Year to access the "DQR" file.

Please feel free to contact me if you have any questions.

Very truly yours,

A handwritten signature in black ink that reads "Becky Konkle".
