Re: Statistical Reporting Guide

We are pleased to announce our new Statistical Reporting Guide as an enhancement to the many resources available to NISS member companies.

The Statistical Reporting Guide was developed primarily for companies or individuals that are new to statistical reporting and also as a reference for veteran reporters. It is written in a Q&A format and helps to explain all of the basics of statistical reporting. The guide contains a wealth of information on the entire process of reporting data to NISS.

With bookmarks and direct links to pertinent files and website pages, we believe this Statistical Reporting Guide will be of great benefit to our member companies.

Member companies can download this guide at any time on the NISS website under the following menu item: [Training/Education/Statistical Reporting Guide](#).

Please feel free to contact us if you have any questions or need any additional information.

Very truly yours,

A handwritten signature in black ink that reads "Theresa A. Szwast".
