Bulletin No. 09-2023

To: NISS Member Companies

RE: Voluntary Automobile – Low Speed Vehicles Class Expanded to North Carolina

This Bulletin announces the expansion of Low Speed Vehicles Class Code 9470 to North Carolina for Voluntary Private Passenger Automobile risks.

Low Speed Vehicles are identified as "limited use" automobiles generally having a maximum performance speed between 20-25 miles per hour, for example. The operation of such vehicles is typically restricted to public highways with speed limits not in excess of 35 miles per hour.

This statistical change applies to policies effective October 1, 2023, and subsequent. The coding on the attached page will be reflected in the 4th Quarter 2023 revisions to the Automobile Volume II Statistical Plan.

Please let us know if you have any questions.

Sincerely,

Jeffrey R. Patterson President & CEO

AMR Pater
