Re: Introducing the Updated NISS Website – New Look and Improved Functionality

We are pleased to share some exciting news with you: earlier this month, we went *live* with an updated website developed with help from the NISS Technical Advisory Committee. The new NISS website contains all the content found on the previous site with a fresh new look and feel.

Our updated site also has improved functionality that promises to make [www.niss-stat.org](http://www.niss-stat.org) an even more valuable resource for your organization. Some of the features of the new site include:

- Easier navigation
- More efficient and intuitive user interface
- Cleaner, simplified web pages to easily find what you need
- Categorized search results
- Updated technology for optimal viewing on a range of devices
- Improved help documentation
- Additional content

Since it is our most utilized resource, we are always looking for ways to improve and enhance our website. We look forward to continuing to provide the best resources in the industry for our member companies.

There is no need to change or update your user ID and/or password - your existing logon information will continue to work on the new site. If you have any questions, please contact Ann Stochel, NISS Statistical Systems Manager at 317-876-6200 ext. 1044 or [astochel@niss-stat.org](mailto:astochel@niss-stat.org).

NISS is pleased with these website enhancements and hope you will be, too, as initial feedback has been very positive. Please feel free to contact us if you have any thoughts about these new features.

Very truly yours,

A handwritten signature in black ink that reads "Theresa A. Szwast".
