To: NISS Member Companies

Re: North Carolina Private Passenger Automobile Territory Code Revisions

We have been notified by the North Carolina Rate Bureau (NCRB) that the Commissioner of Insurance in North Carolina has approved revisions to the Private Passenger Automobile territory definitions. NCRB member companies were notified of the Private Passenger Automobile territory definition changes in a circular mailed by the NCRB on January 26, 2015.

The revised territory system contains 34 territories defined in terms of contiguous ZIP codes, as shown on the attached pages. These new territory codes are effective October 1, 2015 for both private passenger automobile and miscellaneous personal vehicles in North Carolina.

For business written prior to October 1, 2015, companies should continue to report the old territory codes. The old territory codes should also be used for any endorsement or loss activity on policies effective prior to October 1, 2015, regardless of when it is reported.

Territory coding remains unchanged for Other than Private Passenger Automobile experience.

As noted above, these changes are effective on all new and renewal policies effective on or after October 1, 2015. The attached pages set forth the changes as they will appear in the 4th Quarter 2015 revisions to the NISS Automobile Volume II Statistical Plan.

Very truly yours,

A handwritten signature in cursive script that reads "Theresa A. Szwast".

Theresa A. Szwast
